

GUARANTEE

Aura Light International AB

Aura ECO Luminaires Long Life

Aura Light offers an eight (8) year system guarantee for Aura ECO Luminaire Long Life. The guarantee is eight years from the date of delivery. The guarantee period is calculated at 6 000 burning hours per year, with a maximum of 48 000 hours.

The guarantee is based on one switch on/off per day, and covers defects in components and materials, which are not derived from improper handling or installation, incorrect voltage or wrong ambient temperature. The guarantee does not apply to any failure resulting from the use of strong detergents, acids, solvents, ammonia, chlorine and similar. Installation costs are not covered by this warranty. Should the failure rate be higher than 10% within the specified warranty period, Aura will without charge, replace defective components.

For all Long Life light sources Aura also offers a lifetime warranty. This warranty applies to light sources in installations made in accordance with relevant standards and requirements. The life of each light source can be found at www.auralight.com.

Indemnity cannot be claimed based on this guarantee.

Warranty applies provided that following conditions are fulfilled:

1. If problems with defective components would occur should this be handled as follows. Notify Aura of the complaint. After the complaint, any defective component is returned to the Aura test in Aura laboratory. Only defects confirmed by Aura Lights laboratory leads to compensation.
2. The guarantee is valid from the date of delivery.
