

CASE STUDY

Coor Service Management, Sweden

Coor Service Management is the leading player in service management in the Nordic Region. The company specialises in managing, developing and implimenting service functions in office complexes, properties, production plants and in the public sector.

Long Life provides cost savings

Rickard Shattuk from Coor in Hägersten explains why they chose Aura Long Life.

"As Long Life fluorescent lamps from Aura Light last so long, one person can deal with all service and maintenance. This is something that would not have been possible without Long Life fluorescent lamps."

Good service and fast deliveries

"Aura Light is the only supplier with a lifetime guarantee. Furthermore, we have entered into an agreement that means we buy our light sources exclusively from Aura Light. The service has always been good, with prompt deliveries, but above all they give us quick information on delivery deadlines that we can rely on. The personnel at Aura Light are very pleasant too," concludes Rickard.

About Aura

Aura supplies Long Life light sources and solutions. With a lifetime that is at least three times longer, you can reduce your maintenance costs and environmental impact by a third. With our T8 Eco Saver and Eco solutions, you can also reduce your energy consumption dramatically, thus reducing your energy costs and carbon footprint further.
